

CSE 1007 DIGITAL ASSIGNMENT-3
-AISHWARYA S 19BCE1709

A. CREATING TABLES USING SERVLETS

```
package com.company;

import java.io.IOException;
import java.io.PrintWriter;
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.PreparedStatement;
import java.sql.SQLException;

import javax.servlet.RequestDispatcher;
import javax.servlet.ServletException;
import javax.servlet.http.HttpServlet;
import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

public class EmpTable extends HttpServlet
{
    public void doGet (HttpServletRequest req, HttpServletResponse res) throws IOException,
ServletException
    {
        Connection con;
        PrintWriter out = res.getWriter();
        try {
            String dbDriver = "com.mysql.jdbc.Driver";
            con = DriverManager.getConnection("jdbc:mysql://localhost:3306/companydb","root",
"Haloarenes");
            String query ="CREATE TABLE employees (empId varchar(10) NOT NULL ,emp_name
varchar(50) NOT NULL,"+
"CID varchar(50) NOT NULL,dept_name varchar(50) NOT NULL, designation varchar(50) NOT
NULL, salary decimal(15,4), PRIMARY KEY (empId))";

            String query1="Create TABLE companies (CID varchar(50) NOT NULL, company_name
varchar(50) NOT NULL,city varchar(50) NOT NULL, PRIMARY KEY(CID))";
            String query2="Create TABLE managers (managerId varchar(50) NOT NULL, mname
varchar(50) NOT NULL UNIQUE,"
+"CID varchar(50),no_of_indoor_projects decimal(2,0), outdoor_project_area decimal(10,2),
PRIMARY KEY(managerID), UNIQUE(mname))";
            PreparedStatement preparedStmt = con.prepareStatement(query);

            int rs = preparedStmt.executeUpdate();
            preparedStmt = con.prepareStatement(query1);
            rs = preparedStmt.executeUpdate();
            preparedStmt = con.prepareStatement(query2);
            rs = preparedStmt.executeUpdate();

            PrintWriter pw=res.getWriter();
```

```

        out.println("<html><head><style> body {background-color: powderblue;}\n"
            + "h1 {color: lavenderblush;text-align:center;}</style></head><body><h1>TABLES HAVE BEEN CREATED"
            + "</h1></body></html>");

    } catch (SQLException e) {
        out.println("NO");

        e.printStackTrace();
    }

}

}
}

```

B. INSERTING RECORDS:

Form 1- Employee Form

CODE:

```
package com.company;

import java.io.IOException;
import java.io.PrintWriter;
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.PreparedStatement;
import java.sql.SQLException;

import javax.servlet.RequestDispatcher;
import javax.servlet.ServletException;
import javax.servlet.http.HttpServlet;
import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

public class AddRecords extends HttpServlet{

    public void doPost(HttpServletRequest req, HttpServletResponse res) throws IOException, ServletException
    {Connection con;
    PrintWriter out = res.getWriter();
    try {
        con = DriverManager.getConnection("jdbc:mysql://localhost:3306/companydb","root","Haloarenes");
        PreparedStatement st = con.prepareStatement("insert into employees values(?,?,?,?,?)");
        st.setString(1, String.valueOf(req.getParameter("empid")));
        st.setString(2,String.valueOf(req.getParameter("name")));
        st.setString(3,String.valueOf(req.getParameter("cid")));
        st.setString(4,String.valueOf(req.getParameter("dname")));

        st.setString(5,String.valueOf(req.getParameter("des")));
        st.setDouble(6,Double.valueOf(req.getParameter("sal")));
        st.executeUpdate();
        con.close();
        out.println("<html><head><style> body {background-color: powderblue;}\n"
            + "h1 {color: lavenderblush;text-align:center;}</style></head><body><h1>Record"
            + "has been inserted into the database"
            + "</h1></body></html>");

    } catch (Exception e)
    {out.println("NO");
    e.printStackTrace();
    }
}
```

```
}
```

```
}
```

OUTPUT:

The screenshot shows a web browser window with the address bar set to 'localhost'. The page title is 'EMPLOYEE FORM'. The form itself is centered on a light pink background. It has a title 'EMPLOYEE FORM' in teal. Below the title are six input fields, each with a label to its left: 'Employee ID' (value: E223), 'Employee Name' (value: Mira L), 'Company ID' (value: C123), 'Department Name' (value: Design), 'Designation' (value: Team Leader), and 'Salary' (value: 20000). The 'Salary' field has a yellow border. At the bottom of the form is a teal 'SUBMIT' button.

After successful insertion

Form 2 - Company Form

SERVLET CODE:

```
package com.company;

import java.io.IOException;
import java.io.PrintWriter;
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.PreparedStatement;
import java.sql.SQLException;

import javax.servlet.RequestDispatcher;
import javax.servlet.ServletException;
import javax.servlet.http.HttpServlet;
import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

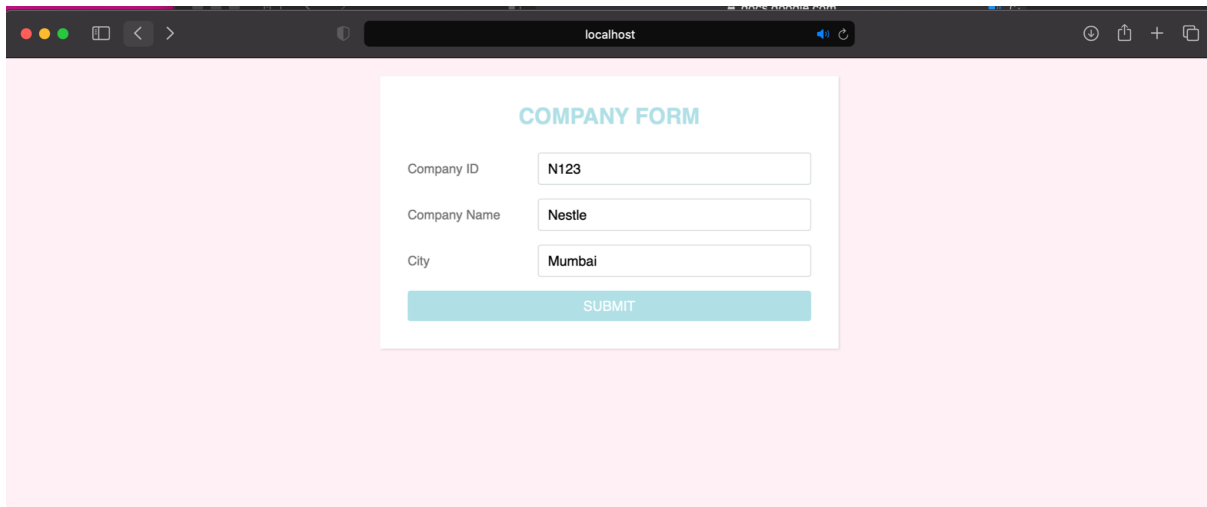

public class AddRecords1 extends HttpServlet {

    public void doPost(HttpServletRequest req, HttpServletResponse res) throws IOException,
ServletException
    {Connection con;
    PrintWriter out = res.getWriter();
    try {
        con = DriverManager.getConnection("jdbc:mysql://localhost:3306/companydb","root",
"Haloarenes");
        PreparedStatement st = con.prepareStatement("insert into companies values(?,?,?)");
        st.setString(1, String.valueOf(req.getParameter("cid")));
        st.setString(2,String.valueOf(req.getParameter("name")));
        st.setString(3,String.valueOf(req.getParameter("city")));
        st.executeUpdate();
        con.close();
        out.println("<html><head><style> body {background-color: powderblue;}\n"
+ "h1 {color:
lavenderblush;text-align:center;}</style></head><body><h1>Record has been inserted into the database"
+ "</h1></body></html>");

    }catch(Exception e)
    {out.println("NO");
    e.printStackTrace();
    }
    }

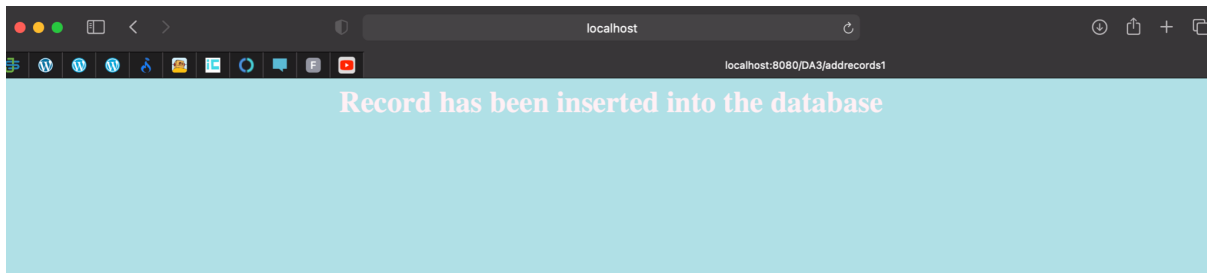

}
```

OUTPUT:

A screenshot of a web browser window displaying a form titled "COMPANY FORM". The form is centered on a light pink background. It contains three input fields: "Company ID" with the value "N123", "Company Name" with the value "Nestle", and "City" with the value "Mumbai". Below these fields is a teal "SUBMIT" button. The browser's address bar shows "localhost".

After successful insertion

Form 3:

Manager Form

CODE:

```
package com.company;

import java.io.IOException;
import java.io.PrintWriter;
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.PreparedStatement;
import java.sql.SQLException;

import javax.servlet.RequestDispatcher;
import javax.servlet.ServletException;
import javax.servlet.http.HttpServlet;
import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

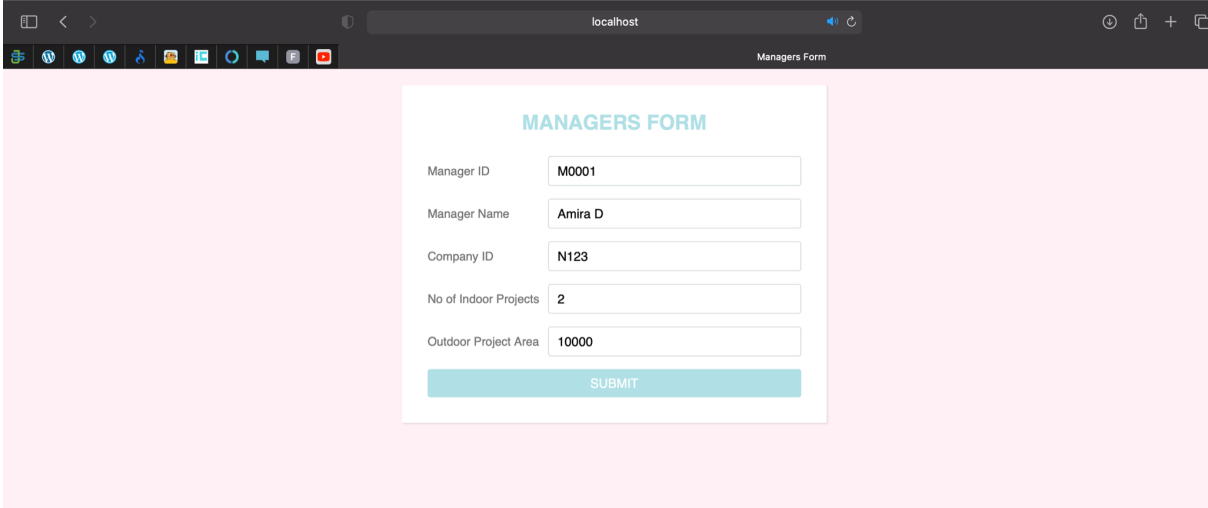

public class AddRecords2 extends HttpServlet {
```

```

public void doPost(HttpServletRequest req, HttpServletResponse res) throws IOException, ServletException
{
    Connection con;
    PrintWriter out = res.getWriter();
    try {
        con = DriverManager.getConnection("jdbc:mysql://localhost:3306/companydb", "root", "Haloarenes");
        PreparedStatement st = con.prepareStatement("insert into managers values(?,?,?,?)");
        st.setString(1, String.valueOf(req.getParameter("mid")));
        st.setString(2, String.valueOf(req.getParameter("name")));
        st.setString(3, String.valueOf(req.getParameter("cid")));
        st.setString(4, String.valueOf(req.getParameter("no")));
        st.setString(5, String.valueOf(req.getParameter("od")));
        st.executeUpdate();
        con.close();
        out.println("<html><head><style> body {background-color: powderblue;}\n"
            + "h1 {color: lavenderblush;text-align:center;}</style></head><body><h1>Record"
            + "has been inserted into the database"
            + "</h1></body></html>");
    } catch (Exception e) {
        out.println("NO");
        e.printStackTrace();
    }
}
}
}

```

OUTPUT:

The screenshot shows a web browser window with the address bar set to 'localhost'. The page title is 'Managers Form'. The form itself is titled 'MANAGERS FORM' in blue. It contains five input fields: 'Manager ID' with the value 'M0001', 'Manager Name' with 'Amira D', 'Company ID' with 'N123', 'No of Indoor Projects' with '2', and 'Outdoor Project Area' with '10000'. Below these fields is a blue 'SUBMIT' button.

After successful insertion

C. DELETING A RECORD:

CODE:
